

**CONTACT III**

The first and most successful aluminium buttplate, now in third generation:

- Both wings movable.
- Ideal for supported and three positions.
- Easy to adjust while in position.
- Machined hollows for extra adhesion.
- 1st choice of top shooters worldwide.
- Looks perfect with all rifles...

*The contact set a trend in function and design which has continued to the present day.*

**MEC CONTACT III 152,- €**

Aluminium buttplate for air rifles

Best. Nr.: 180

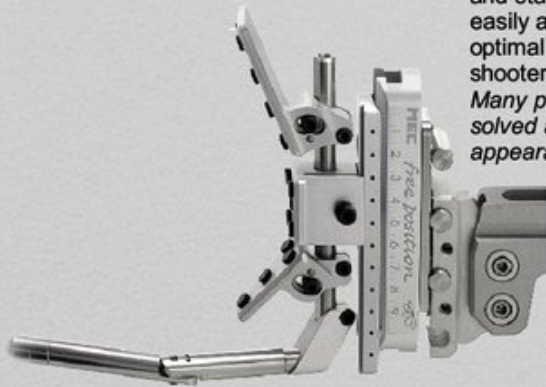

Fits Anschütz, FWB, Walther, Steyr and practically all other stocks.

*Mounts quickly, adjustably and without complication on almost all target rifles.*

**FREE POSITION**

The buttplate for sport and free rifle. Aluminium and stainless steel. All elements movable and easily adjusted, unequalled variability. The optimal solution for prone and three-positions shooters, and smallbore supported.

*Many problems in the smallbore positions can be solved as soon as a sensible buttplate makes its appearance...*

**MEC FREE POSITION 239,- €**

Aluminium buttplate for Sport- and Free Rifle.

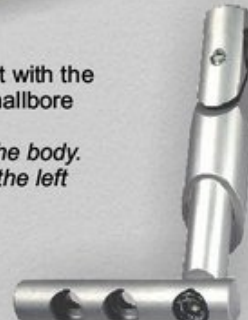

Best. Nr.: 170

**REST**

Variable bar, which is permitted to make contact with the ribcage; fits all aluminium stocks for air and smallbore rifles. For the standing position.

*This tool limits the rotation of the rifle towards the body. Those who have contact between the grip and the left shoulder should try it.*

**MEC & centra REST 84,- €**

Aluminium chest support

Best. Nr.: 231

Some supported shooters still prefer the good old rubber buttplate, here carefully modelled in centra quality...

**COMFORT**

*Suitable for all current match rifles.*

**centra COMFORT 56,- €**

Rubber buttplate for supported shooting.

Best. Nr.: 19913901

The idea came from a friendly medical technician; a roll, which immediately gives the foot a stable position while at the same time deferring any loss of circulation. First sceptical, we are meanwhile convinced.

You should try out this roll at the next opportunity: helps to stop the right foot from going to sleep as well as giving an astoundingly good support. Even the most delicate joints are protected...

**Achilles**

Kneeling roll with integrated foam mantle for pressure-reduction. Anti-stretch artificial fibre and adhesive cover.

Stable support, noticeably reduced fatigue in the foot.

*The first two places in 3x40 at the 2007 German Championships were won with the prototypes...*

**MEC Achilles 69,- €**

Kneeling roll (no filling).

Best. Nr.: 290

Filling, 2 kg for one roll, plastics granulat.

**12,- €**

Best. Nr.: 291
