

KAT 1/08

This stabiliser bridges the metal action at the point where the loading port causes a weakness.

VIBRAKE

- Strengthens the action in the area of the loading port.
- Reduces vibration, improves grouping ability.
- Raises the sight-line by 8 mm.
- Weight 110 grammes.

ANSCHÜTZ
FEINWERK
WALTHER

centra VIBRAKE

Action stabilizer and 8 mm raiser block.

GLOBE

- For bolt-handles on smallbore rifles.
- Alu-ball, laterally grooved, anodised.
- Grippy, easier and attractive.

MEC GLOBE

32,- €

Blue aluminium ball.

ANSCHÜTZ	MEC 261
FWB/WALTHER	MEC 262

The Italian handle. Elegant ejection and reduced vibrations during firing, because of the lighter weight.

BI-POD

- Rifle stand, aluminium.
- For use during assembly, cleaning.
- For pauses in the prone position.
- Feet can be folded up.

centra BI-POD

57,- €

Bipod with folding rubber feet.

Fold the feet down and the rifle stands safely. Also suited to ammunition testing in the sitting position.

Best. Nr.: 19930002

STABILIZER Carbon

- Additional weights for sport- and free rifle.
- Can be offset sideways and rotated in 3-D.
- With carbon body (damping effect, 220 g.)
- Or with two steel weights (230 g.).
- Easy to mount, precise to adjust.

centra STABILIZER Carbon

229,- €

Supplementary weight with filled carbon zylinder.

Best. Nr.: 19930004

STABILIZER Steel

Both additional weights are multi-adjustable, the ball-joint allows movement in all directions. This allows the balance and reaction of the rifle to be sensitively equalised.

centra STABILIZER Steel

209,- €

Supplementary weight with steel weights.

Best. Nr.: 19930005

HANDSTOP

- Anatomical basic form.
- Height adjustment.
- Can be offset.
- Can be adjusted in position by means of the hand-screw.

MEC centra HANDSTOP

93,- €

Best. Nr.: 19913701

HANDSTOP Start-Line

- Anatomic basic form.
- Height adjustment.
- Can be offset.
- Can be adjusted in position by means of the hand-screw.

centra HANDSTOP Start-Line

72,- €

Best. Nr.: 19913703
