

KAT 1/08

Thread → M18 = 2  
M22 = 5

Diameter 3.0 - 7.5 mm (0.1 mm steps)

Ring width: 1.0 - 1.4 mm (0.1 steps)

Best. Nr.: **19423514**

**HIGH END Circle**

A perfect example of the classic fixed element. *Sharper it doesn't get.*

**centra HIGH END Circle**  
M18 + M22 **16,50 €**

Foresight element, polished glass, refraction free, different ring widths.

Thread → M18 = 6  
M22 = 7

Diameter 3.0 - 7.5 mm (0.1 mm steps)

Best. Nr.: **19463516**

**HIGH END Square**

The same in a square frame. *The square contains the round...*

**centra HIGH END Square**  
M18 + M22 **18,50 €**

Foresight element with metal square insert. Polished glass, refraction-free.

- Polarisation filter for the foresight tunnel.
- Especially for very bright targets (Sun, MEYTON).
- Regulates brightness and contrast in the tunnel.
- Only in combination with polarising filter in the iris.

**POLARIZER Single**

*Only the target area is darker, the surroundings remain lit!*

**centra POLARIZER Single**  
Polarisation filter. **20,- €**

Best. Nr.:	19940024	M18
	19940025	M22

**POLARIZER double**

*Two discs in the foresight tunnel permit polarisation independent of the iris.*

**centra POLARIZER double**  
M18 / M22 **40,- €**

Polarisation filter, two discs for regulation in foresight tunnel.

Best. Nr.:	19940026	M18
	19940027	M22

Best. Nr.:	M18	M22
2,4 mm	19320024	19350024
2,6 mm	19320026	19350026
2,8 mm	19320028	19350028
3,0 mm	19320030	19350030

**VERTICAL**

The dinosaur among foresights - when, then from **centra**. *Rajmond Debevec is the most well-known current shooter still using a post foresight.*

**centra VERTICAL**  
M18 / M22 **23,- €**

Rotatable post foresight, four widths.

Best. Nr.:19940031	M18 Korn 3,0 - 4,8	
Best. Nr.:19940032	M22 Korn 3,0 - 4,8	
Best. Nr.:19940033	M18 Korn 4,9 - 7,0	
Best. Nr.:19940034	M22 Korn 4,9 - 7,0	
Best. Nr.:19940035	M18 Korn 3,0 - 4,8	
Best. Nr.:19940036	M22 Korn 3,0 - 4,8	
Best. Nr.:19940037	M18 Korn 4,9 - 7,0	
Best. Nr.:19940038	M22 Korn 4,9 - 7,0	

**FILTER FS**

The surrounding is coloured, the ring remains clear. *Many find the contrast and clarity improved with a tinted target.*

**centra Filter FS**  
M18 / M22 **24,- €**

Colour filter glass for tunnel, yellow and red. Threaded to fit level or eagle eye. Better contrast.

Best. Nr.:	M18	M22
0,3 diopt.	19915203	19915503
0,5 diopt.	19915205	19915505

**EAGLE EYE**

Classic magnification for all those over 46. *Insert to see the big picture...*

**centra EAGLE EYE** M18/22 **34,- €**

For all the main makes of tunnel and DUO foresights. Female thread for spirit bubble. 0.3 and 0.5 dioptr, M18 + M22.

Best. Nr.:	M18	M22
19915506	M18	
19915507	M22	

**VARIO KORNOPTIK**  
Variable magnification in the tunnel. *Zoom in as far as you want, just screw into the tunnel.*

**centra VARIO** **102,- €**

Variable eagle eye, 0.1 - 0.5 dioptr, M18 / M22.

Best. Nr.:

19915508	M18
19915509	M22

**VARIOINTEGRAL Eagle Eye**

As above, built-in to the foresight tunnel. Short design, can be combined with fixed and variable elements (shorter than 50 mm for air rifle). Tunnel dovetail must be ordered separately!

**VARIOINTEGRAL Eagle Eye**

**centra VARIOINTEGRAL** **149,- €**

Variable eagle eye in tunnel, 0.1 - 0.5 dioptr, M18 / M22.
