**SCATT USB TRIGGER SENSOR**

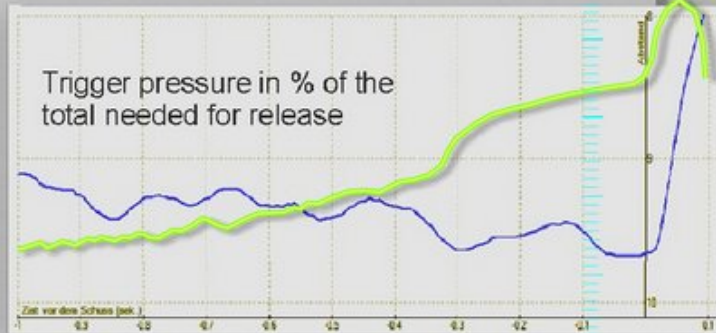

Processor and trigger-lever with integrated Piezo-receptors for the exact measurement of the actual pressure against time. With straight or curved trigger-lever, fits sport rifles and pistols. Connects to the computer and the processor via a USB cable. The SCATT-Programme now displays the pressure curve under the menu point 'distance'. The first technically satisfactory method for capturing that which takes place between fingertip and trigger. Only from SCATT!

**SCATT USB TRIGGER SENSOR**  
225,- €

SCATT USB Trigger pressure sensor, complete.  
Best. Nr.: 606 G with straight trigger-lever.  
Best. Nr.: 606 R with curved trigger-lever.

Triggering as pressure-time graph using the trigger-sensor of the SCATT System. Connects to the computer via USB and displayed by the software. Now you can see how much 'feel' you have for the shot release, and how consistently you increase the pressure, from one shot to another.

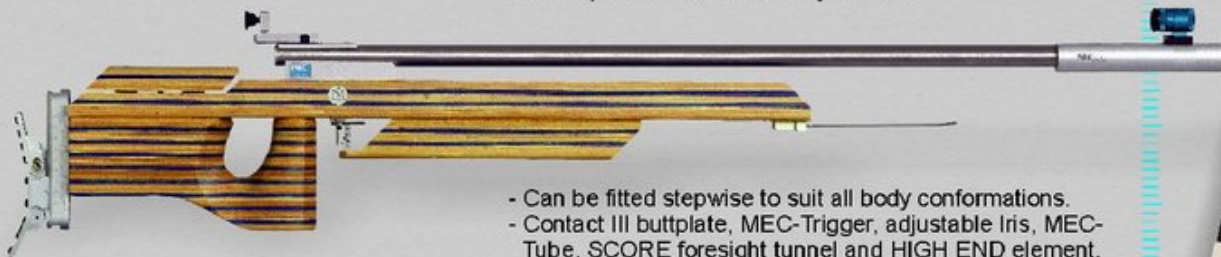

Quality, robustness and variable usages are the key points of the SCATT-rifle. This practice rifle is no toy, but a high-value training accessory.

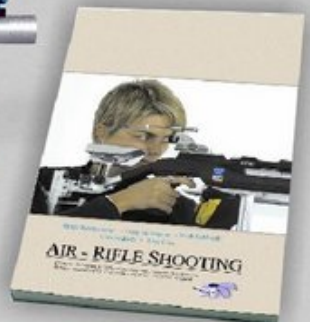

**SCATT-rifle**

SCATT-rifle, a dummy rifle for all aiming path systems.  
- High quality laminated stock, right-left grip.  
- Lock-free magnetic trigger, automatic reset.  
- 2,5 kg light, Match-Quality, Biathlon-Function.  
- Cheekpiece and fore-end adjustable.

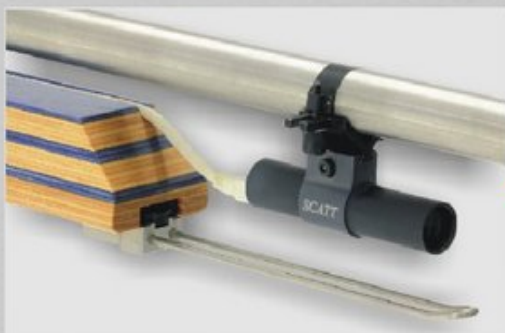

**SCATT-RIFLE** incl. sensor-guard  
850,- €  
Best. Nr.: 620

- Can be fitted stepwise to suit all body conformations.  
- Contact III buttplate, MEC-Trigger, adjustable Iris, MEC-Tube, SCORE foresight tunnel and HIGH END element.  
- Delivered in its own case with accessories.  
For training and competition between children from 5 to 12 years of age, also as demo-rifle for public events or teaching purposes. As no shot can be made in any form, the SCATT-rifle does not come under firearms regulations and can be used anywhere. This practice rifle will survive many generations of youngsters.

You can find exact and understandable information on using and interpreting the SCATT system in the books 'AIR RIFLE SHOOTING' and 'GEWEHRTRAINING 2008' (see page 5)

**SENSOR-GUARD**

**SENSOR-GUARD**  
49,- €  
Best. Nr.: 621

Sensor-guard, metal strut designed to protect the SCATT-Sensor from unwanted contacts when the rifle is being rested. Fits in all profile rails.
